

MAKING VIDEOS MORE ACCESSIBLE

SELECTIVE INTERACTIVE VIDEO (SIV) CUSTOM SIV

Reaching new audiences is simple.

According to statistics from the Action on Hearing Loss charity by 2035, it is estimated that there will be 15.6 million people with hearing loss in the UK - that's one in five.

In the UK, the Equality Act 2010 makes it an offense to discriminate against a disabled person on the grounds of their disability in the areas of goods and services and for those offering video services this should be considered when using videos on websites and online.

With our Custom SIV Sign Language service we can produce a British Sign Language or American Sign Language video that can be merged with your online video using SIV as a picture in picture display to appear when needed.

A simple low cost addition to your videos... Be inclusive. Try this custom SIV today.

It's no longer difficult to add sign language video to other videos

SIV allows sign language to be added to videos to make them more accessible

Many could benefit from this simple service

Plus SIV offers improvements in using videos for training, reporting, promoting and so much more...
